Professional Summary

A Front-End Developer. My role is to write and style the front-end components that meet the requirements of our mocks and fulfill our user stories. Technologies used: JavaScript, ES6, CSS3, HTML5, SASS, REACT.js and NEXT.js

Education

Faculty of Engineering, Mansoura University (2016 - 2021)

B.Sc. in Computer science and control engineering.

Cumulative Degree: Excellent with honor (ranking as the 9th among all students).

Graduation project: Online store for selling handmade products (with grade: Excellent).

Experience

- Front end developer at Inspire for solutions-development (November 2021 – Present).

As a Junior React Developer with two years of experience, I've contributed to 3 key projects: Taheel, Qiwa, and BDC (Banque du Caire)

- In the Taheel Project, I focused on React development using (MUI) and Axios for UI design and API communication. I also gained expertise in SASS and (JWT) authentication.
- Transitioning to the BDC Project, I learned Next.js for server-side rendering.
- Building and enhancing a schema builder which concerned about functions that takes JSON schema and return a reusable component which reduced the lines number extremely.
- Overall, my work has been characterized by a commitment to delivering high-quality solutions and adapting to new technologies to meet project requirements.

Courses on Udemey

- websites with HTML and CSS
- Advanced CSS and SASS
- JavaScript from zero to expert
- React 2023 (including redux and next)
- JavaScript Algorithms and DataStructures
- React Native

Projects

- HTML, CSS, SASS, JS templates
 - 1- Fashion landing page
 - Live preview: <https://fashion-wahbah.netlify.app/>

2- Agency landing page

- Live preview: <https://agency-wahbah.netlify.app/>

- Javascript projects

- 1-San3a project

- A 13-page e-commerce website.

- Tech used: HTML, CSS, SASS, JS , MVC pattern and AXIOS

- Quick preview: https://www.linkedin.com/posts/abdallah-wahbah_san3a-project-a-13-page-e-commerce-website-activity-6860633887559811072-LbCg

- React projects

- 1-Brands

- It is a practice on using React hooks, CRUD operations, Routing, Redux Toolkit, Material UI, Formik and Yup.
